

Emily Johnson

Software Engineer

Sydney, Australia | +61400000006 | emily.johnson@email.com

Summary

Full-stack software engineer with 6 years' experience building and scaling Python/React SaaS products, from early IT support work through to leading feature delivery and testing practices on a team of eight engineers. Enjoys mentoring junior engineers, improving developer tooling, and contributing to open-source side projects in her own time.

Experience

Software Engineer — Northbridge Digital, Sydney — 2021 – Present

- Build and maintain full-stack features across a Python/React SaaS product used by 20,000+ users.
- Migrated core services to a cloud-native architecture on AWS, cutting infra cost by 20%.
- Mentor two junior engineers on code review and testing practices.
- Designed and shipped a real-time notifications service using WebSockets, adopted by 3 other teams.
- Led adoption of automated end-to-end testing with Playwright, reducing regression bugs by 35%.

Junior Developer — Pixel Forge Studio, Sydney — 2019 – 2021

- Developed internal tools using Python and React for the studio's production pipeline.
- Contributed to CI/CD pipeline improvements, reducing deploy time from 25 to 8 minutes.
- Built a Slack bot integration that automated build-status reporting for the engineering team.
- Placed 2nd at a 48-hour internal hackathon with a prototype asset-tagging tool.

IT Support & Junior Developer (Part-time) — Campus Tech Solutions, Sydney — 2018 – 2019

- Provided first-line technical support for 150+ staff and students while completing my degree.
- Wrote small Python scripts to automate routine IT ticket triage, cutting response time by 30%.

Projects

shift-planner (open source, github.com/ejohnson/shift-planner) — a rostering tool for small retail teams built with FastAPI and React; 140+ GitHub stars.

campus-timetable-sync (personal project) — a Flask app that syncs university timetable exports with Google Calendar via the Calendar API; used by 200+ students.

Certifications

AWS Certified Developer – Associate (2022); freeCodeCamp Responsive Web Design (2018)

Education

Bachelor of Computer Science — University of Technology Sydney (2019)

Skills

Python, React, TypeScript, AWS, Docker, Cloud computing, SQL, CI/CD, WebSockets, Automated testing (Playwright, pytest)
